

SAMSUNG

Rugged devices for tough jobs

Easy to use, hard to break.

In the tough, competitive world of business, employees need devices that offer a mix of high performance and the best protection from challenging conditions, whatever their job or industry.

Rugged yet agile

Samsung's range of Galaxy Rugged phones and tablets have been specifically designed to perform in the most challenging work environments. With MIL-STD 810 and IP68 certification, they're built to withstand shocks¹ and are water and dust resistant². Plus, their displays have increased touch sensitivity, so they can be operated in harsh conditions, even with gloved hands. Their rugged nature combines with the familiar features of a consumer device—slim, lightweight and with a large edge-to-edge display to bring you the best of both worlds.

Hard at work

Samsung's Galaxy Rugged devices are made for the people who build our homes, patrol our streets and make those crucial deliveries. They have been designed with frontline features such as professional barcode scanners for real-time data capture and fast-charging replaceable batteries³—enabling users in the field to focus on their tasks for longer. Galaxy rugged devices deliver the digital transformational benefits that frontline employees have been sorely lacking because their previous mobile technology did not meet the demands of tough everyday jobs.

Fit for professionals

Maximise your productivity without the need for multiple devices. Programmable hot keys allow quick access to your most critical apps in a single press, while the mPOS feature enables seamless payments across the retail customer journey. And for transport and logistics, the Augmented Reality feature brings a whole new dimension to deliveries and collections.

Maximum security

Samsung Galaxy Rugged devices have been built to protect users from potential cyber-attacks and online crime. Samsung Knox defence-grade security is built into the hardware and software of all Galaxy Rugged devices to protect your most sensitive data from malware and malicious attacks. And biometric face and fingerprint authentication ensures you are the only person who can unlock your device.

Enterprise Edition

All devices within the Samsung Galaxy Rugged range are available on Enterprise Edition—a complete suite of mobile technology and services to give your business more. Configure, update, deploy and run your mobile fleet at scale, ensuring your people are always securely connected and staying productive. All Enterprise Edition devices come with 3 years of enhanced support, ensuring your mobile technology continues to perform.

1. When tested on a flat surface, the XCover 5 can withstand a drop of up to 1.5 metres without its protective casing. The Tab Active3 can withstand a drop of 1.5 metres with its protective casing and 1.2 metres without. The Tab Active Pro and XCover Pro can withstand a drop of up to 1.2 metres with the protective casing and 1 metre without. Drop test results meet Military Standards Certification.
2. Resistant to dust and up to 1.5 metres of fresh water for up to 30 minutes (IP68). 3. Charging dock and extra batteries sold separately.

SAMSUNG

Galaxy XCover Pro

The Galaxy XCover Pro strikes a perfect balance between ruggedness and the slim, lightweight agility of a consumer device. It features a bigger 6.3" display for improved visibility and usability as well as programmable keys for quick access to frequently used apps. You can even set up a push-to-talk walkie-talkie function⁴ to stay in direct contact with colleagues across sites.

Key Features

Premium rugged design (thin and light)

Push to Talk (programmable keys)

mPOS/Barcode scan ready

Display:	6.3" FHD+ HD TFT
Memory:	RAM 4GB/Storage 64GB (+ MicroSD up to 512GB) ⁵
Network:	Wi-Fi, LTE
NFC:	Yes
Battery:	4,050mAh (Replaceable) ³
Processor:	Ramen+ Exynos 9611, Octo-Core 2.3HGz, 1.7HGz
Camera:	Rear 25MP AF, 8MP FF LED Flash. Front 13MP FF
Rugged certified:	MIL-STD-810G ¹
IP Grade:	IP68 ²
Security:	Samsung Knox, Biometric Authentication (Facial recognition, Fingerprint)

Galaxy Tab Active Pro

With its larger 10.1" display, the Galaxy Tab Active Pro gives you more room to work in demanding conditions. For the first time in a rugged tablet, Samsung DeX connects⁶ the device to a monitor with a single cable for a PC-like experience. No cable? No problem. Switch to DeX mode and use your tablet, standalone, like a PC—use the included S Pen with IP68² certification to scroll between open Windows. Plus, drag and drop and right click for more functions like you would on a desktop.

Key Features

10.1" display

MIL-STD 810G Cert

Samsung DeX & S Pen

Display:	10.1" WUXGA
Memory:	RAM 4GB/Storage 64GB (+ MicroSD up to 512GB) ⁵
Network:	Wi-Fi, LTE
NFC:	Yes
Battery:	7,600mAh (Replaceable) ³
Processor:	Qualcomm SDM670, Octo-Core 64bit 2.0GHz, 1.7GHz
Camera:	Rear 13MP AF, Flash. Front 8MP
Rugged certified:	MIL-STD-810G ¹
IP Grade:	IP68 ²
Security:	Samsung Knox, Biometric Authentication (Facial recognition, Fingerprint)

Galaxy XCover 5

At just 9.2mm thick, the Galaxy XCover 5 is a streamlined yet super tough smartphone with a non-slip finish that's easy to grip and comfortable to hold—even with gloves on. The 5.3" high-resolution display delivers an optimal viewing experience for photos, maps and other visual content out in the field. With its programmable keys—that instantly transform it into a barcode scanner or push-to-talk—and a replaceable battery³, nothing will slow you down or disrupt work.

Key Features

IP68 Water & dust resistant

Push to Talk (programmable keys)

Replaceable Battery

Display:	5.3" HD+ TFT
Memory:	RAM 4GB/Storage 64GB (+ MicroSD up to 1TB) ⁵
Network:	Wi-Fi 802.11 a/b/g/n/ac, LTE Cat.4, USB 2.0
NFC:	Yes
Battery:	3,000mAh (Replaceable) ³
Processor:	Exynos 850, Octa 2.0GHz
Camera:	Rear 16MP (F1.8). Front 5MP (F2.2)
Rugged certified:	MIL-STD-810G ¹
IP Grade:	IP68 ²
Security:	Samsung Knox, Biometric Authentication (Facial recognition)

Galaxy Tab Active3

The Galaxy Tab Active3 is slim enough to fit in your pocket, but with an 8" display and water and dust resistant S Pen, it's also big enough to work efficiently on the move. The tablet is NFC-enabled and barcode scanner ready⁷, so you can easily transfer data between devices and capture and scan barcodes to speed up daily tasks. Samsung Wireless DeX also means you can either connect wirelessly to a compatible enabled display, or with a cable⁶. Plus with No Battery Mode you can swap batteries without disrupting your workflow.

Key Features

8" Display

No Battery Mode

Wireless Samsung DeX & S Pen

Display:	8" TFT LCD
Memory:	RAM 4GB/Storage 64GB (+ MicroSD up to 1T) ⁵
Network:	Wi-Fi, LTE
NFC:	Yes
Battery:	5,050mAh (Replaceable) ³ No Battery Mode
Processor:	Exynos 9810 (2.7GHz + 1.7GHz Octa-core)
Camera:	Rear 13MP. Front 5MP
Rugged certified:	MIL-STD-810H ¹
IP Grade:	IP68 ²
Security:	Samsung Knox, Biometric Authentication (Facial recognition, Fingerprint)
