

O2 Recycle for Business

Protect your data, your bottom line and our planet.

Trade in your end-of-life hardware with O2 Recycle for Business and we'll pay you for it. Not only is it free to use, but we will give you the best return on your old devices, we'll also erase any data left on them and recycle your hardware.

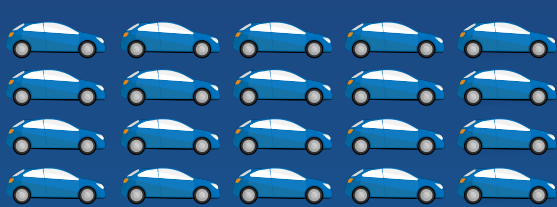

2 million devices

Since 2009, our award-winning service has recycled over two million devices.

£150 million

Many companies forget the potential capital gains in their old hardware. Since our scheme began, we have paid £150 million back to our customers for their old hardware.

10,000 tonnes of CO₂

Our recycling programme has saved ten thousand tonnes of CO₂, equivalent to taking nearly 2000 cars off the road.

100%

Zero landfill

We guarantee that all devices received are securely wiped and 100% recycled – nothing ever goes to landfill.

Guaranteed data security

We will fully ensure that every device is securely wiped. Our recycling partner uses Pervacio's forensically certified device wiping service, providing peace of mind for even the largest of organisations.

Recycle any mobile and ICT hardware

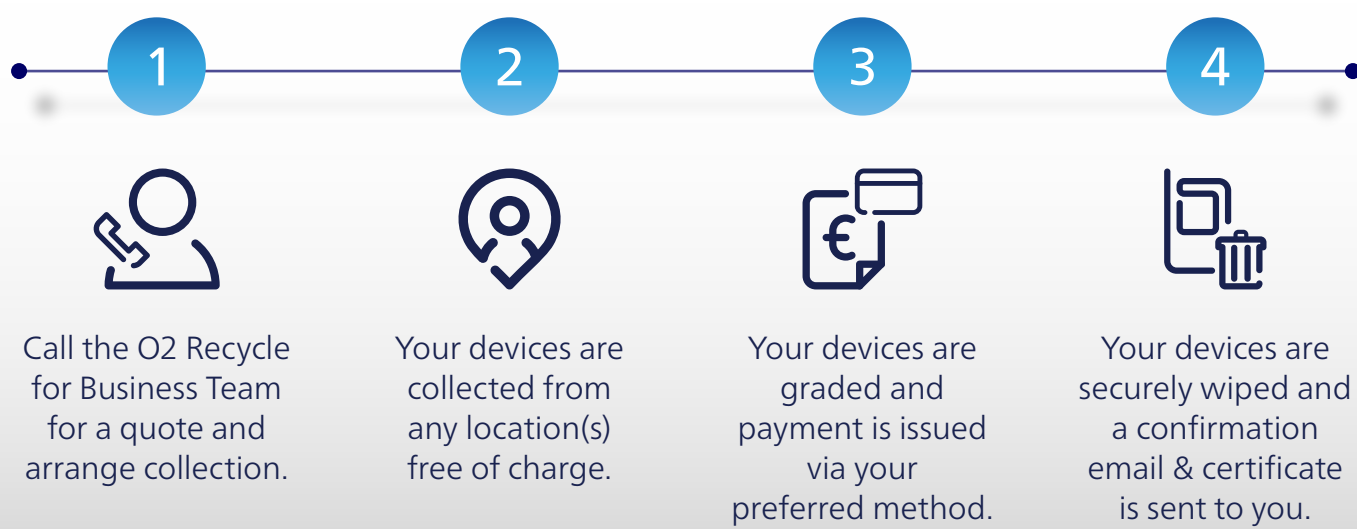

We accept all hardware. Even if your devices have no financial value, we will still erase them and dispose of them responsibly for you, without charge.

Award Winning Service

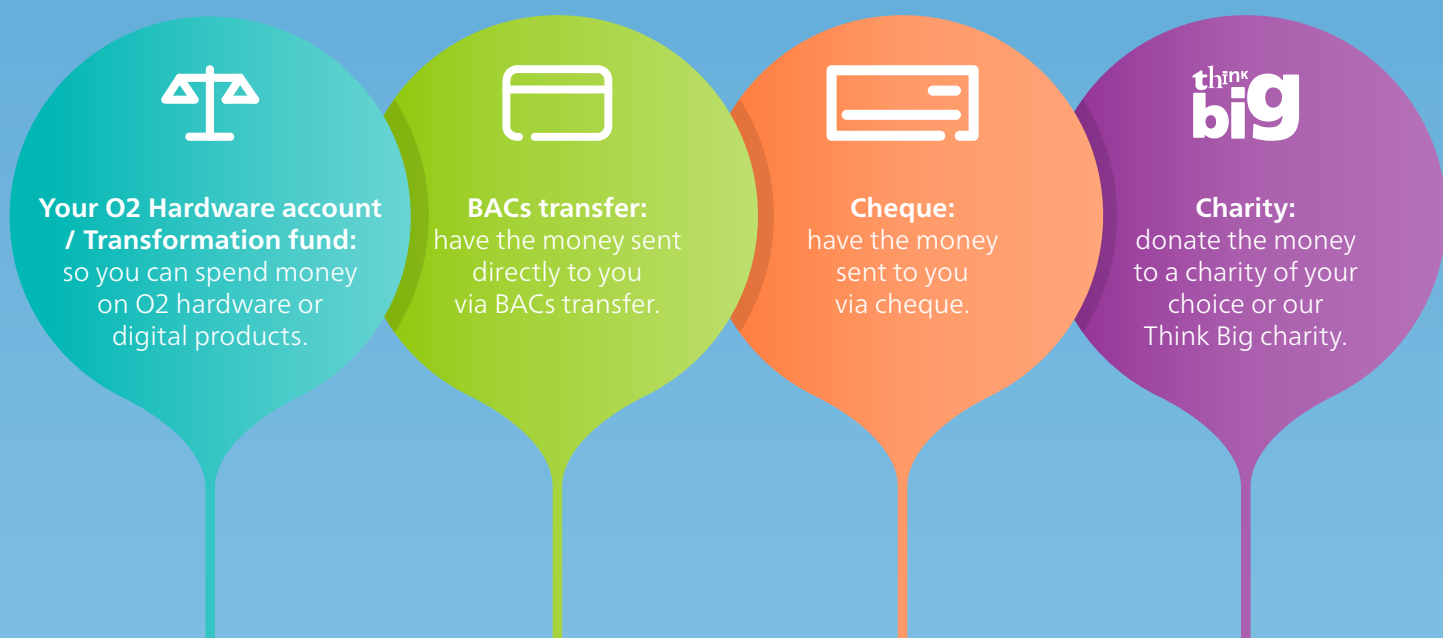

O2 Recycle won 'Best Recycling Provider at the Mobile News Awards 2017'. You can find more info about our award [here](#).
